NEW PROGRAM GETS APPROVAL

American Raw Material To Be Sent Germany.

SCHEME TO ASSIST AMERICAN EXPORTS

Of Great Importance to the American Producer.

Government in Good Shape To Finance Movement of Goods Now Banked Up in Warehouses of the Country.

Washington, March 28.—Decision of the war finance corporation to depart from the Wilson administration policy and launch a new program for substantial government aid to move American exports of cotton and other raw materials to Germany, was declared by treasury officials, today, to be of far-reaching importance to American producers.

Director Angus W. McLean, of the corporation, said, today, that the government is in admirable shape to finance heavier movement of goods now banked up in American warehouses, out of a fund amounting to $382,000,000 now on deposit in the treasury for this specific purpose.

A Big Movement

From the large number of applications of American exporters and American banks on file before the finance corporation, today, seeking government export advances running from $1,000,000 and upward in each case, it became apparent exporting houses are planning a larger movement of American products overseas.

The new attitude of the war-finance corporation, it was said, will produce heavier demands for many leading staples needed abroad, chiefly cotton and eventually relieve credit stringencies in those directions.

Director McLean said, today, that it is not now possible to state how soon or in what volume government advance, under the export operations of the corporation, would be determined. The pile of applications for government aid, now before the corporation, are based upon actual contractural arrangements made between American firms and buyers abroad and some little time is required to perfect both the contracts and the guarantees of the American exporters or bankers, before the corporation can announce its final approval.

Discussing the plan for larger government aid for shipments of raw materials to Germany, as well as other nations, Director McLean asserted that the United States foreign trade will not be sustained in competition with other leading powers, unless quick steps are taken to devise a system for long-time credits to foreign buyers needing American goods. He ascribed the trade dominance of Great Britain chiefly to the existence in that country of a flexible program, backed by the government to keep the flow of exports moving through long-time credit arrangements with the government actively participating.

BIG EGG ROLLING IN WHITE HOUSE GROUNDS

President and Mrs. Harding Turn Grounds Over to Kids.

Washington, March 28.—President and Mrs. Harding turned the White House grounds over to the kiddies today.

For the first time since 1917, the great iron gates of the south grounds of the White House were thrown open and youngsters swarmed in for Easter egg rolling—a sport peculiar to children of the national capital. Hundreds of youngsters were waiting in line bearing their little Easter baskets of varihued eggs, when the gates were thrown open and with oug wild whoop they swarmed over the green sward of the executive mansion.

The affair was strictly for children. Adults were barred unless they accompanied children. Some enterprising youngsters made capital of this and charged Easter tourists, who desired to enter the grounds, a small fee for posing as their wards.

Is Reinstated

Elyria, March 28.—Judge W. S. Thompson of the common pleas court, today, reinstated A. A. Kline, former mayor and president of the Ohio Police Chiefs' association, as chief of police at Lorain. The court orders King reinstated immediately and to be given his pay as police chief since suspended, last July.

BEAUTIFUL ELY HOME OFFERED TO PRESIDENT HARDING FOR NEXT SUMMER

President Harding may spend part of the summer in the beautiful Shinnecock Hills, Long Island. Dr. Albert H. Ely, who accompanied President Harding on the trip to Florida just before the inauguration, has asked the president to accept the use of his beautiful home at Southampton, Long Island, as a summer residence. The Ely country home is one of the show houses of the fashionable resort, and is within one mile of the most attractive golf links in the country. It is situated on Pasture road, on a high site between Peconic bay, on the north, and Shinnecock bay, on the south. Beyond Shinnecock bay is a beautiful view of the ocean. The photograph shows the beautiful Ely home.

COMMUNISTS USE DYNAMITE

Rising in Germany Featured by Many Blasts.

DETACHMENTS OF REICHSWEHR BUSY

Cleaning Up Middle Germany and Disarming "Reds."

Berlin Is Quiet, Sunday, with Exception of Minor Disturbances in Suburbs—Situation Rapidly Improving.

Berlin, March 28.—After heavy fighting, Security—Green—policemen have recaptured Sangerhausen, in Prussian Saxony, from the Communists. Elsewhere in middle Germany, the Reichswehr, supported by artillery, are dispersing armed bands of "Reds."

Wilhelmstrasse admits, however, that conflicting reports are being received from some sections where trouble has broken out.

German officials complain that the confiscation of the military aeroplanes by the allies has made air scouting impossible, hindering attempts to get information from danger spots.

Reports from Munster were that the Ruhr district is quieter, although small fights have occurred between Communists and police detachments. The police are confiscating machine guns, ammunition and propaganda literature.

Communists attempted to blow up the great electric power station in the suburb of Spandau, throwing Berlin into darkness, but little damage was done.

Two railroad bridges were blown up by the "Reds," near Wallhausen.

It is declared in official circles that the real crisis will depend upon whether the workmen return to the factories or go on general strike. This climax may come tomorrow.

A general strike has been called at Leipzig and there are agitations in other Communistic centers, notably Erfurt, Eisleben, Elberfeld and Leunau.

Troops Busy.

Berlin, March 28.—Detachments of Reichswehr, supported by artillery, are systematically "cleaning up" middle Germany, dispersing and disarming the revolutionary Communists and arresting many of the ringleaders.

Government officials declared today, that the situation was improving.

Bitterfield is still in the hands of the Communists, but officials believe that the "Green" police will soon be in control there.

The Communists at Bitterfield have been holding up trains, turning out and searching the passengers.

Sunday was quiet in this city, although some disturbances were reported from the suburbs.

A feature of the rising was the large quantity of dynamite that the Communists were able to secure. There were numerous reports of isolated blasts where the outrages were evidently carried out by individuals working independently of the Communist organization.

Order Restored.

Berlin, March 28.—Order has been restored at a number of points affected by the Communist outbreak.

Mansfield was occupied by a force of the security police. At the same time members of the security forces, about 1,000 of whom were employed in the movement here and in that vicinity, occupied Halber, Kloster and Hettstedt. The only fighting in this

RUSS WILL NOT ABANDON MONEY

Soviet Rescinds an Order Governing Trade.

RETURNS TO USE OF MONEY IN BUSINESS

Change Will Be Made as Soon as Possible.

Passing of One of the Most Revolutionary Reforms Inaugurated by the Bolshevik Regime—Other Changes.

[BY LOUISE BRYANT.]

[Copyright, 1921, by I. N. S.]

Moscow—[By Wireless to Berlin]—March 28.—The decision of the Russian soviet government to abolish money as the medium of value and exchange, has been rescinded. This announcement was made, today, by E. Leshava, head of the Russian foreign trade board.

In response to a question as to how Russia plans to resume trading not only in this country but with foreign nations, M. Leshava said:

"Naturally, we can not use money just yet in our international commerce. However, we intend to return to the money standard. Commerce will be carried on upon the money standards and it is being so ordered by the soviet government. Merchants will repay to the state in goods that they get from the peasants and other customers will pay in goods for products they receive.

"It is probable that the small business people will be under the control of the cooperatives. The foreign trade board will act as agent of the Cooperatives' society in foreign countries.

"The cooperatives will control the distribution of all goods bought, both local and foreign. The cooperatives will immediately give the peasants some manufactured articles on credit from the government.

"When confidence is established, the peasants will pay in products.

"As to government concessions, they must be approved as follows:

"First, by the department to which the concessions belong; second, by the foreign trade board and third, by the committee of commissars, of which Nicolai Lenine is the chairman.

"The concessions include foreign capital to strengthen our industries. Without it our social and economic development would be interfered with."

The announcement that the Russian soviet government will adopt the capitalistic governments does away with one of the most revolutionary reforms inaugurated by the Bolshevik regime in Russia. After the establishment of the soviet federal government, it was stated that the old monetary system would be done away with and that goods of all kinds would be used as the medium of exchange and barter. It was declared that the financial systems of the "bourgeois" countries was one of the chief causes of the sufferings of the working class. However, while money was ordered abolished, the government continued to print paper roubles. They were not used in the distribution of such food and clothing and fuel as the government rationed. Where supplies were doled out upon a system of cards, the status of the applicant determines the amount he should receive.

Court Recesses.

Washington, March 28.—The United States supreme court recessed this afternoon, until April 11,

APPLICATIONS ARE DISMISSED

"Shortline" Railroads Must Wait for Wage Changes.

ANNOUCEMENT OF RAIL LABOR BOARD

The Decision Affects Sixty-Five Roads in Country.

Working Conditions and Rates of Wages on Larger Roads Must Receive Attention Before the "Shortlines."

Chicago, March 28.—All applications by "shortline" railroads for working conditions and rates of wages that govern the so-called "standard" lines, were dismissed by the United States railway labor board, today. The decision affects sixty-six roads in all parts of the United States.

The board ruled that none of the applications by the "shortline" roads could be acted upon until cases pending that involved the standard roads are disposed of. The decision, however, does not prevent the smaller roads from bringing up their applications when the calendar in clear of cases involving the large roads and it does not affect any decisions as to wages, hours of labor or working conditions, previously rendered by the board.

Get Same Scale.

The decision is, in effect, a refusal to permit the "shortlines" to participate, for the present, in the $600,000,000 wage-scale award for the standard lines, made last summer. Employes on many of the roads affected, however, are receiving the same scale enjoyed by employes in some classes of labor on the larger lines.

Four thousand employes, varying from twenty-five to 600 for the several carriers included in the decision, are affected.

The labor board, in its decision, makes a point of the fact that employes on the so-called "shortline" roads are not classified as to labor performed and that a comprehensive study would have to be made with regard to such classification before a reasonable decision could be given in the 200, or more, cases. Today's decision, the board states, shall not in any way affect the right of employes' organizations of the carriers in question, to meet with representatives of

DISMISSAL OF JEWELL SUIT

Federal Judge Finds Rights of Workers Not Menaced.

PROCEEDING BROUGHT TO STOP WAGE CUT

Toledo & Ohio Central and Other Roads Defendants

Injunction Asked in Behalf of 1,750 Railway Laborers To Prevent a Reduction in Wages Is Denied Today.

Columbus, March 28.—Believing the legal rights of the railroad workers are not endangered, Federal Judge Sater, today, dismissed the suit filed by Cecil Jewell, on behalf of 1,750 United Brotherhood of Maintenance-of-Way Employes & Shop laborers, seeking to enjoin officials of the Toledo & Ohio Central, the Zanesville & Western, the Kanawha & Michigan & West Virginia railroads from reducing the wages of these employes, effective April 1, to thirty-three cents, from 48 1-2 cents, an hour.

Judge Sater's action terminated a short session of court.

Attorney Ralph S. Walton, Columbus, former member of the state civil service, representing the 1,750 plaintiffs, informed the court that the suit had been filed in the belief that it was necessary to preserve the legal rights of the plaintiffs. Unless a temporary injunction was granted, pending final disposition of the wage controversy by the federal railway labor board, Attorney Walton said, the employes would be left without adequate remedy at law. The purpose of the litigation, he said, was to maintain a status quo, pending the labor board's decision.

Answering on behalf of the railroads, Attorney W. N. King, Columbus, denied that the rights of the employes were in danger. He said the four railroads named as defendants had informed the federal railway labor board that the employes had refused to discuss the question of reduction of wages and that the railroads had asked the board to dispose of the controversy in accordance with the provisions of the federal transportation act.

The court was informed further by Attorney King, that, while the railroads desired the labor board to approve their proposal to reduce wages effective as of April 1, the railroads have promised not to modify prevailing wages until proper action is taken by the board.

At this point, Judge Sater terminated oral argument and announced that in view of the promise made by Attorney King, that the wages of the employes will not be affected pending power action by the federal labor board, there was no occasion for any action on the part of the court.

Counsel for the railroad employes concurred in this opinion and the case was dismissed.

AN INCOME TAX LAW DECISION

Supreme Court Finds Law of 1916 Constitutional.

TEST CASE BROUGHT BY CHICAGO COMPANY

Part of Law Applying to Profit Made by Sale of Capital Assets Is Subject of Attack.

Washington, March 28.—The income tax law of 1916 is constitutional insofar as it provides that a profit derived from the sale of capital assets is income and taxable, according to a decision handed down today by the United States supreme court.

The test case was taken by the Merchants' Loan & Trust company, of Chicago, trustees of the estate of Arthur Ryerson. The amount involved in this suit is $311,242. A number of other cases of importance testing the validity of the law were taken to the supreme court of the United States at the same time.

A similar decision was rendered in the case of the Eldorado Coal & Mining company, of Illinois.

Involved in these cases is one of David M. Goodrich, of New York, who claimed he was being taxed on a loss in value of stock securities. Goodrich became owner by gift of stock in the B. F. Goodrich company, of Akron, prior to March 1, 1913, and sold them after that date. When he received the stock it was worth $291,696. March 1, 1913, it was worth $148,000. When sold it brought $269,345. He was taxed on the difference in value between the March 1, 1913, quotation and the sales price.

WASHINGTON AS A MELTING POT

For International Affairs Touching World Peace.

ANOTHER PEACE CONFERENCE SOON

In Which White House Will Be Another Versailles.

Members of Foreign-Relations Committee of the Senate Are Sticking Close to Capital and Await Developments.

Washington, March 28.—Washington, as the world's melting pot for international negotiations and intrigue—Washington as the center of another peace conference, the White House as another Versailles during the next few months, is the prospect seen, today, by both Republican and Democrat members of the senate foreign-relations committee.

They anticipate the arrival here, this week, of Rene Viviani, former French premier, on "a mission of courtesy," will be followed by a series of others equally important, before President Harding's plan for world peace is definitely and finally formulated.

Eventually, they realize that as members of the foreign-relations committee they will be called upon to consider whatever world peace pact the president may recommend to the senate and it is for that reason they are lurging at the capitol during the present recess of congress so they may keep in personal touch—as much as possible—with what is transpiring in foreign affairs at the White House and the state department.

Thus far, with the exception of Senator Cabot Lodge, veteran republican leader from Massachusetts and their chairman, few of them have discussed foreign affairs with the president, nor has he consulted them recently.

But some of them are confident, even with a few of them who are Democrats, like Hitchcock, of Nebraska, and Pomerene, of Ohio, that sooner or later the president will want to discuss his foreign policies with them, if only to pave the way for the acceptance of the Harding peace plan, by the senate.

Missing Faces.

Reorganization of the senate foreign-relations committee will find several faces missing from its council table, notably that of the president, himself and of Secretary of the Interior Fall, both of whom took an active part in the consideration of the treaty of Versailles, with its league-of-nations covenant, when the document was before the committee.

Senator Lodge, in heading the committee again, is expected to find the same conflict among its Republicans, as well as its Democratic members.

The makeup of the reorganized committee will, in order of rank, be: Republicans—Lodge, chairman; McCumber, North Dakota; Borah, Idaho; Brandegee, Connecticut; Knox Pennsylvania; Johnson, California; New, Indiana; Moses, New Hampshire; Kellogg, Minnesota and McCormick, Illinois.

Democrats—Hitchcock, Nebraska; Williams, Mississippi; Swanson, Virginia; Pomerene, Ohio; Pittman, Nevada; and Shields, Tennessee.

Republicans, ten; Democrats, six. Of these Kellogg and McCormick will be the only new members.

FIRST ASSISTANT POSTMASTER GENERAL

Colonel Work has long been identified with Republican affairs in Colorado. He is a member of the Republican national committee. Colonel Work is a native of Indiana county, Pennsylvania.

Assistant Postmaster General Kennett, who will be displaced by the appointment of Work, will continue with the postoffice department for a time, it was announced.

Assertions that the Japanese naval program was being followed for the purpose of competing with the United States have been denounced as "preposterous and absurd" by Vice Admiral Tomosaburo Kato, Japanese minister of marine. He declared that Japan was not trying to compete with the American navy and that the Japanese naval program had been formulated so that the Island empire could be defended against any emergencies arising in the Far East alone.

Great Conflagration Sweeps a Japanese City.

TWELVE HUNDRED TOYKO HOMES BURN

Loss Estimated at $12,600,000. Reported 133 Persons Hurt. Troops Fight Fire.

Tokio, March 28.—The whole city of Tokio was imperiled Saturday night by the greatest fire with which it has been visited in a decade. The conflagration destroyed 1,200 houses in the Yotsuya district, in the northwestern part of the city, involving a loss estimated at 25,000,000 yen—formally about $12,500,000.

Thousands of persons were made homeless and 133 were injured. The burned buildings included three hospitals, a bank, and several large business buildings.

For four hours during the night a violent wind drove the flames in the direction of the heart of the city, causing a panic among the population over a wide area.

Four thousand troops aided the firemen in combating the blaze, but it was only when the force of the wind let down notably that their efforts to control the fire were successful.

CINCINNATI IS HIT BY STORM

Houses Unroofed and Great Damage Done.

DAYTON MENACED BY RISING WATERS

Two Bridges Are Closed to Traffic Today.

Feared Bridge Foundations Are Being Undermined—Streams Throughout Ohio Are Rising According to Reports.

Cincinnati, March 28.—Thousands of dollars' worth of damage was done to property and several persons were injured by flying debris, in a fifty-six mile gale and electrical storm that struck this city and vicinity, yesterday afternoon. The damage was most severe in the suburbs of Cumminsville and Northside, where fifteen houses had their roofs blown off. Terrace park and other outlying communities in the eastern section were also hard hit by the storm. None of the injured was seriously hurt.

A Precaution.

Dayton, March 28.—As an act of precaution, the city, today, ordered the Dayton View and Herman avenue bridges over the Miami closed to all vehicular traffic, while pedestrians may cross at their own risk. The river is high, but not at a danger point and the city expects no damage. On account of scouring many feet deep beneath the bridges, the city was taking soundings to determine the extent and prepare for repairs. These are held up until the water recedes. The Dayton View bridge connects the city proper with the Dayton View residential section, while Herman avenue bridge connects with the McCook field section of the city.

In Capital City.

Columbus, March 28.—Flood water conditions here were not dangerous, this morning, although the Scioto river was rising at the rate of a foot an hour. The river must rise at least five feet yet, police officials stated, before the situation becomes dangerous.

At Newark.

Newark, March 28.—A heavy rain, which has been falling steadily since early yesterday, caused all the streams in this section to overflow their banks. Considerable property damage has already been done.

At Standstill.

Columbus, March 28.—The high waters of the Scioto river had practically reached a standstill here, early this afternoon. From 7:30 a. m. to noon, the river rose two feet, to thirteen, from eleven feet, according to readings made by police officials. The waters are several feet below danger stage.

CAMP SHERMAN IS HARD HIT BY FIRE

Two Schools and Fortieth Service Club-House Burned.

Camp Sherman, March 28.—The grenade school, the thirty-seven-millimeter school and the Fortieth Service club-house, was completely destroyed by fire and several other barrack buildings were seriously damaged at noon today. The origin of the fire is unknown. Damage is estimated at $30,000.

One man was slightly injured and one soldier was overcome by smoke. Flying fragments, following the explosion of 2,700 stored hand grenades, scattered the large crowd that gathered around the building.

Certain human expressions, such as the baring of the teeth in rage and the bristling of their hair under extreme fear, have been put forward by scientists as proofs of man's descent from animals.

MUST WORK OUT TRADE SCHEME

That Will Extend Russia Long-Term Credits.

AMERICAN EXPERTS HAVE TASK AHEAD

Acknowledgement of American Claims Against Russia Must Come Before Trade Action.

Washington, March 28.—Acknowledgment of American claims, totaling more than $350,000,000, is likely to be insisted upon by the United States as one of the conditions to be complied with before there can be any trade agreement with soviet Russia, it was learned today.

Of this amount, $187,729,750 was advanced by the United States government to Kerensky, as head of the provisional Russian government, while the remainder represents Russian loans floated in this country by private banking corporations and unpaid interest. By far the greater part of the private loans were handled by J. P. Morgan & Company, issues underwritten by that concern totaling $100,000,000. The National City bank, of New York, handled approximately $22,000,000.

State department officials point out that in the trade agreement recently with Great Britain, by Krassin, the soviet representative, acknowledgment is made in principle, at least, of all British claims for services or goods supplied the Russian government. It is argued that equal concessions should be demanded by the United States.

There is no suggestion, however, that immediate payment should be demanded. Government experts who have been watching the Russian situation carefully for the past two years, are convinced that Russia not only could not meet such an obligation at this time, but also that some practical scheme of extending long-time credits to her must be worked out if there is to be a resumption of trade on a scale worth considering.

PRESENT DEPRESSION IN COAL INDUSTRY

Due to Consumers, According to a Federal Report.

Washington, March 28.—Consumers, and not the railroads, the operators or the miners, are responsible for present depression in the bituminous coal industry, Dr. George Otis Smith, director, and F. G. Tryon, coal statistician of the geological survey, declared in a statement issued here. A policy of "buy only as needed" is being pursued dangerously by bituminous consumers, the geological survey stated. Empty coal bins will be the result, it was said, should a sudden industrial upturn develop, as in such an event the mines would be unable to produce and the railroads unable to carry sufficient coal.

Reports of bituminous production this month, the statement said, show constant declines, 6,525,000 tons being the production for the week ending March 19, as contrasted with a weekly production of around 12,000,000 tons several months ago. During the first week of the present month 2,600 soft coal mines reported to the geological survey an average employment of only 19 out of a possible 48 hours. Only a few hours were lost at a few mines, it was said, because of car shortage.

PAYING HOMAGE TO LATE CATHOLIC PRELATE

Crowds Visit Cathedral in Baltimore Today.

Baltimore, Maryland, March 28.—A seemingly endless line of worshippers moved to the cathedral, today, to pay last homage to James Cardinal Gibbons, whose body lies in state upon a specially constructed catafalque. The dead prelate is clothed in full episcopal robes, with the mitre on the head and the episcopal ring on his finger. The doors of the cathedral were thrown open to the general public after today's solemn mass, the first of a series which will end, Thursday, when the funeral will take place.

Among the late cardinal's relatives from Dayton, who will be here for the obsequies, are M. J. Gibbons, Arthur Gibbons, A. J. Ward and Frank McCormick.

AN EARTHQUAKE IS REPORTED TODAY

Shocks Believed from Quakes in Southern Mexico.

New York, March 28.—An earthquake was recorded, today, at both the Museum of Natural history and Fordham university, by seismographs.

J. J. Lynch, seismographic expert at Fordham university, said the quake began at 2:56 a. m., that the main shock started at 3:06 a. m. and reached its maximum violence three minutes later and that the instrument was still recording tremors an hour later.

The estimated distance of the earthquake was 2,350 miles.

Lynch believes the shock occurred in southern Mexico.

DEFENDS ATTITUDE IN RUSS SITUATION

Compers Would Not Recognize Russian Soviet.

Washington, March 28.—Samuel Compers, president of the American Federation of Labor, denounced as "unpatriotic Americans" those labor leaders who have severely criticised his refusal to indorse the Russian soviet government or to urge its recognition by the United States. Flat refusal to retract in the slightest from his position was expressed by Mr. Compers in a communication to certain labor organizations which had adopted resolutions condemning the present administration of the federation because of its Russian stand, as subservient to capital and against the best interests of the workers. The action of these bodies, the letter said, was based on conclusions drawn from "utter misinformation" of the true situation in Russia. Mr. Compers denied there was an American embargo on Russian gods, and added if there were, lifting it would have no material effect on trade relations.

MAN IDENTIFIED AS MEMBER OF BAND

Held To Answer for Part in Murder of Cleveland Man.

Cleveland, March 28.—Identification of Frank Morton, brought back from Mansfield reformatory, as one of the band of six which killed Wilfred C. Sly and George E. Fanner in a successful payroll robbery, December 31, by Sam. Purpera, will result in his arraignment, on a murder charge.

Police have secured evidence, it is said, from Purpera, by which it is hoped to round up the other members of the gang.

To Identify Body.

Chicago, March 28.—Attempts are being made, today, to identify the body of a man which was found beneath an elevated sidewalk in west North avenue and to find a woman who was seen leaving the spot a short time before the body was found. WITH THE PUGS

Time Nearly Up.

New York, March 28.—The curiosity of the boxing public regarding the site of the Dempsey-Carpentier match, will be gratified, this week. The thirty-day extension of time granted Promoter Rickard for naming the site is nearly up and he is expected to announce it within the next forty-eight hours. John W. Snyder, Cumberland, Maryland, promoter, is here, today, waiting to confer with Rickard. Snyder is prepared, he says, to meet any proposition to land the fight. An attractive proposition from Atlantic City is also lying on Rickard's desk, but while it is expected he will stage the battle on New Jersey soil, it is believed the site chosen will be nearer to New York than the famous ocean resort.

HARDING WILL NAME PROBERS

Plans Inquiry into Treatment of Disabled Veterans.

CONFERENCE HELD AT WHITE HOUSE

Plan To Place All the Federal Agencis Dealing with Service Men in One Bureau.

Washington, March 28.—President Harding decided to have an exhaustive investigation made of the manner in which the government is caring for disabled war veterans. Within a few days, it was announced at the White House, he will select a special committee to conduct an inquiry.

The president, it was stated, is determined to lay the whole situation frankly before congress and the country for the purpose of correcting any abuses that may have developed. The investigators will be instructed to recommend legislation that in their opinion may be necessary to remedy the situation.

Decision to inaugurate an inquiry was reached by the president after he had conferred with Charles G. Dawes, Chicago who served in France as a brigadier general in charge of the procurement of supplies; F. W. Galbreath, national commander of the American legion; Thomas W. Miller, alien property custodian and a former overseas officer; Assistant Secretary Roosevelt of the navy department, and his personal physician, Brigadier General C. E. Sawyer, who is conducting a survey of the government's public welfare agencies. All five had luncheon at the White House and discussed in detail with the president the soldiers' relief problem. Later they went over the situation with General Pershing at his home here.

No announcement was made as to the probable size or personnel of the committee, but it was indicated that no time would be lost in getting the inquiry under way.

The president has been giving the war veteran problem considerable attention and is anxious to have the service improved. Numerous suggestions have been offered him, chief among them the American legion plan of placing all government agencies dealing with service men in one bureau.

REQUEST HARDING TO CALL A CONFERENCE

Women Make Appeal for Complete World Disarmament.

Washington, March 28.—A resolution requesting President Harding "to call a conference of the nations on the question of world disarmament" and asking that increased appropriations by congress for armaments be postponed pending such a conference, was adopted here at an Easter mass meeting held in advocacy of disarmament under the auspices of the women's disarmament committee.

Senator Borah, who was the principal speaker, again advocated an agreement between the United States, Great Britain and Japan to reduce naval armaments and charged the authors of programs for increased armaments for the world with being "sedulous patrons of Bolshevism, painstaking and industrious gardeners of unrest and misery."

Many of the leaders in the movement were prominent in the campaign for woman suffrage. Other speakers here were Representative Freer of Wisconsin, Mrs. Ida Clyde Clark of New York and Edward F. Grady of the American Federation of Labor.

Among the telegrams read was one from William Jennings Bryan saying he was "heartily in favor of disarmament, for an agreement with other nations if possible, by our example if necessary." "I hope the spirit of friendship and co-operation will sense this before the fear of universal bankruptcy compels it," the message added.

FRANCISCO VILLA TURNS DOWN OFFER

Refuses To Join Movement To Overthrow Obregon Regime.

Mexico City, March 28.—An attempt to enlist Francisco Villa the former bandit, in the Carranzista revolutionary cabel against the Obregon government has failed, according to the newspaper, Las Noticias, today. The newspaper stated that a delegation of former Carranzista army officers, headed by Candido Aguilar, son-in-law of the late president called on Villa at the latter's ranch near Canutillo, several days ago and asked the former bandit to join General F. Murguia in revolt in effort to overturn the present administration.

Villa was said to have listened to the overtures and then refused his aid.

FARM LABOR GROWS PLENTIFUL IN OHIO

Average Wage Will Be Lower in Ohio This Year.

Columbus, March 28.—Farm labor is plentiful in practically every section of Ohio. Also it is cheaper than last year. This is the finding of W. F. Callander, statistician of the Ohio Farm Bureau federation, after a canvass of conditions in all Ohio counties. "In most counties," Mr. Callander finds, "the supply of farm labor is greater than the demand. This situation is due in part to the release of men from industrial plants as well as the actual decrease of demand from the farmers. Of course many of the men available are inexperienced. The decrease in demand has been caused by the slump in the prices of farm products, as well as by the high wages still demanded by those who are seeking employment. The average wage paid this year will be lower than heretofore. Because labor seems unwilling to work for present wage standards such as farmers feel they can afford to pay, the general sentiment among farmers throughout the state is to do what they themselves can get done and leave the remainder undone."

MAJOR LOTT DIES AT KENTUCKY HOME

Serves in Many Campaigns of Army Against Indians

Covington, Kentucky, March 28.—Major George Gearhart Lott, seventy-five, Civil war veteran, member of the Loyal legion and Masonic fraternity, died at his home on Greenup street, yesterday, following a prolonged illness. Major Lott also served in the regular army Indian campaigns in the Dakotas and Texas. He was retired in 1889.

Major Lott was born in Pennsylvania and after an academic education there, entered West Point. One year later, he volunteered in the Union army.

Major Lott's widow, Mrs. Nannie Southgate Lott and a son, George Southgate Lott, of Dayton, Ohio, survive.

DEBT TO BE WIPED OFF CAMPAIGN SLATE

Hays To Clear Up Indebtedness for Last Campaign.

Washington, March 28.—Before Postmaster General Will H. Hays resigns as chairman of the Republican national committee next June he is expected to launch a campaign to wipe out the committee's debt of $1,500,000. President Harding is known to be considerably concerned about the debt.

Senator New of Indiana, Charles Hilles of New York, John T. Adams of Iowa and Carmi A. Thompson of Ohio are among those most mentioned as President Harding's choice to succeed Hays as chairman of the national committee. The first two are former chairmen of the committee. Adams is now vice chairman. Thompson for years has been prominent in Ohio politics and is a close personal friend of the president.

SENT TO PRISON BY SOVIET COURT

American Red Cross Worker Is Given Sentence.

Washington, March 28.—Captain Emmett Kilpatrick of Uniontown, Ala., Red Cross worker in south Russia, captured by the Bolsheviki forces last fall, is reported to have been sentenced to 20 years' imprisonment at hard labor after trial before a soviet tribunal in Moscow, and Red Cross headquarters here has ordered an investigation. The report was brought out of Russia by a Hungarian refugee, who reached Budapest. Cabled instructions to follow it up have been sent to various European headquarters. Captain Kilpatrick, while on leave of absence from his regular post of duty, got far forward with the forces of General Wrangel and was captured when soviet armies started a general advance.

GREEK ADVANCE IS BEING CONTINUED

Turkish Nationalist Forces Are Falling Back.

London, March 28.—The Greek advance continues along the line on the Smyrna and Borussa battle fronts in Anatolia, with the Turkish Nationalists falling back, said a despatch transmitted from Athens by the Exchange Telegraph, today.

In the Ushak sector, the Turks are taking refuge in the mountains and the hostilities in that quarter may develop into guerilla warfare.

The Greeks have occupied Afium-Karahissar, capturing many prisoners and much booty. The Turks were put to flight and were pursued towards Kutaia.

Stock Market.

New York, March 28.—The stocks were irregular at the opening, but the general trend of prices was to higher figures. Fears of possible unfavorable dividend developments resulted in heavy pressure in a number of issues. Sears Roebuck declined 1¼ to 66; Kelly Springfield, ½ to 38, and Industrial Alcohol, 3½ to 65¾.

For the first time on record there is an ice famine in Iceland, due to the mild winter and lack of manufacturing facilities.

MURDER PROBE IS IN PROGRESS

Georgia Planter and Negro Must Answer.

SPEEDY JUSTICE IN COURT IS PROMISED

Alleged Slayer of Eleven Negroes Being Thoroughly Investigated by Officers.

Monticello, Georgia, March 28.—With the first chapter of Georgia's most grewsome murder investigation closed since the discovery of the last of the bodies of eleven negroes in Jasper and Newton counties officials of Jasper county, today took steps to bring to trial at once Clyde Manning, confessed black executioner and John Williams, planter, whom he implicates as instigator of the killings. Officials have started a quiet but thorough investigation of the past of Williams, who owns a large plantation near here. They want to know what has become of ten other farm hands said to have mysteriously disappeared.

Leaders in business, civic and social circles here are stunned by the swift developments of the past few days. These investigations began when Manning, arrested on suspicion of having helped make away with two negroes, confessed suddenly that he and Williams had slain or helped slay eleven hands who had worked on the Williams plantation. He showed officers where these men had been buried. Six were pulled from watery graves in the Yellow and Alcovy rivers. Five were found buried in shallow graves on the Williams plantation.

At first there was a feeling of sympathy for Williams, when Manning made his charges, but since then the tide has changed. Anger and indignation have taken hold of the citizens who have witnessed every statement of the negro farm hand borne out by investigations.

It is charged that Williams has been a notorious 'negro worker" and that in Monroe county, where he formerly lived, he was burned out for cruelty to employes.

It has developed that Williams kept his negro workers on his plantation in a strong house, which is nothing short of a stockade. Stout wooden bars were on the windows and heavy doors guarded the entrances. This house was guarded during the night by Clyde Manning, who was an employe of Williams for fifteen years and Charley Chisholm, trusted negro, who later, according to Manning's confession, was slain by Williams and Manning.

WEATHERMAN CALLS FOR SHOWERS, GETS DELUGE

Two and One-Third Inches of Rain Tumble Down.

THEN COLD-AIR VALVE IS TURNED AND IT SNOWS

Visions of 1913 Flood—Sewers Bulge and Streets Are Flooded—Streams Booming

Remember the weatherman Saturday predicted thunder showers for Sunday? We he was aware of for it came, preceding a cloudburst, or something like that, the rain just showers.

It started about 4 o'clock after the Firda song service had been rendered by Dr. E. H. Eaton sperger. Many ladies left at weather reports. Only reported that up until the rain turned to snow this morning it had showered just two and a third inches of rain. It was the hardest rainstorm Marion has encountered on Easter for a good many years. Sewers all over the city were so flushed that the water backed up in some basements.

A Veritable Fountain.

On Girard avenue between Bellefontaine avenue and Columbia street there was a veritable fountain out of intake caused by a water jammed sewer while some of the streets on the West Side were real rivulets. Many cellars were flooded in all parts of the city.

The Big and Little Scioto rivers rose several feet and all the little brooks bobbed up out of their banks and then the chill set in and turned the rain to snow and—who knows? Why, if it hadn't been for that there might have been another flood, and last night every one was thinking about 1913, when, in March, too, there was such a flood that it's useless to say anything more about it because everybody knows all about it.

Even the Babies.

Even the babies of 1913 know what the 1913 flood meant, and somehow it takes all the joy out of a weather story just to mention it let alone going into all the harrowing details.

But this is really March weather of the typical brand. It's just as hard to put a finger on March and know where she is as it is to know where, when and how some politicians stand. A soldier would say that March is a fickle bird. Nothing or nobody has anything on her for variety.

BIG REVIVAL CLOSED AT EPWORTH CHURCH

Offering of $700 Is Given Evangelist Birney.

In recognition of his splendid services here the past two weeks, the congregation and friends of the Epworth M. E. church Sunday gave an offering of over $700 to Dr. George H. Birney, the evangelist who has so ably conducted the special series of meetings. During the meetings there were 150 conversions, 51 of which were children.

More than 100 adults united with the church Sunday, nearly all of them at the morning service and a number were baptized in the evening. About seventy-five children and young people will be taken into the church next Sunday between the Sunday-school and church services.

The attendance at Sunday school yesterday was 1,472, the largest at any regular Sunday-school service in the history of the church and the attendance at the morning preaching hour was also the largest for any morning service ever held at Epworth, even the class room of the lower floor and balcony being filled. The attendance was very good in the evening, but the rain kept many away. Dr. Birney preached at both services and also talked a half hour at the Sunday school hour.

The church was decorated with Easter lilies and other bloom.

Mrs. Robert O. Reynolds

"I have actually gained twenty-five pounds and I just think Tanlac is the grandest medicine in the world," said Mrs. Robert O. Reynolds, 127 North Denver St., Kansas City, Mo.

"For ten long years I suffered from a very bad form of rheumatism, stomach and nervous troubles. My appetite was very poor. What little I did eat soured on my stomach and I suffered the most severe pains in my back, hips and shoulders. My rheumatism was so bad that I could not raise my hands to comb my hair and my arms hurt me to my finger tips. I became so weak and run down that I lost all my energy and life had become almost a burden. I tried many things, but nothing helped me.

"I had only taken my first bottle of Tanlac when I noticed my appetite was improving and I could sleep better at night. I have taken three bottles and the way it has helped me and built me up is really astonishing. I can eat anything and everything without the slightest disagreeable after effects. I sleep just fine at night and am in better health than I have been for years. I am glad to give this statement, hoping that any who are suffering as I did may experience the same wonderful results which I believe they will if they give Tanlac a fair trial."

Tanlac is sold in Marion by The Dumble Pharmacy, in LaRue by Sifritt's Pharmacy, and in Waldo by Apt Pharmacy.—Adv.

FAVORITE DAMAGE SUIT DISMISSED

Loren McClure, Defendant in Suit for Divorce, Asks Wife's Petition Be Dismissed.

Trial of the $5,000 damage suit of Jane Luft against the City of Marion was begun before a jury in the common pleas court this morning.

Miss Luft alleges that she was injured May 11, 1920, in stepping from a street car at the east Center street transfer. She charges that her injuries were caused because of a depression in the pavement and that the city was negligent in not having the place repaired. Her ankle was hurt.

Carhart & Warner are attorneys for the plaintiff. The city is represented by City Solicitor George T. Geran. It is expected that the case will reach the jury late this afternoon.

Case Is Dismissed.

The $5,000 damage suit of Jerry Favorite against the G. R. Hopkins company was dismissed at the costs of the plaintiff without prejudice to the bringing of a new action in the common pleas court Saturday afternoon. The plaintiff alleged damages to his reputation and credit because of the alleged malicious attachment of his wages by the defendant company.

Husbands Wants Petition Dismissed.

Dismissal of the petition of the plaintiff and denial of a decree of divorce are asked in the answer of the defendant filed this morning in the common pleas court in the divorce suit of Rossie McClure against Loren McClure. W. W. Ulsh's Pleading.

The answer and cross-petition of William W. Ulsh was filed in the common pleas court, Saturday afternoon, in the foreclosure suit of the Citizens' Building & Loan company against Delia Daly, James Daly and Willis Hipsher. The pleadings were filed through H. A. Stevens.

The answer admits the allegations of the plaintiff's petition and the answering defendant, in his cross-petition, sets up a claim for $130.71 alleged due him through a judgment for $125.31 and costs, March 26, in Justice G. Farr Larie's court against Della Daly and James Daly. He asks that the premises be sold and upon distribution of the proceeds he be paid first after the plaintiff.

A. Murray claims the defendants owe him $190.50 for labor and materials in building the house. The Economy Lumber company sets up a claim for $1,322.93 for materials in building the house and J. W. Jacoby states he hold a note for $1,500 secured by a mortgage on the property. They ask that upon sale of the property the liens be marshalled and that their claims be paid.

Cross-petitions of the Economy Lumber company and Elijah Schmidt were filed in the common pleas court Saturday afternoon in the foreclosure suit of Rossie McClure against Loren McClure. The pleadings were filed through J. Wilbur Jacoby.

The Economy Lumber company sets up that it has a mechanic's lien on the dwelling premises in question accuring from materials furnished to repair and construct an addition to the building. The company states there is due them $59.69, asks that its lien be foreclosed, the premises sold and it be first paid out of the proceeds.

Elijah Schmidt states there is due him $38.47 for labor in building the dwelling, asks that the property be sold and he be first paid from the proceeds.

Suit for $5,000 Damages.

Suit for $5,000 alleged damages for personal injuries has been filed in the common pleas court by Virgil C. Powell against Fred W. Almendinger. The petition was filed through Justice, Young & Mouser.

Powell's suit is the outgrowth of an automobile accident June 11, 1920, on the Smeltzer-Bethlehem road when an automobile in which he was riding and one owned by the defendant and driven by Clyde Ward collided. The plaintiff alleges permanent injujries from deep cuts on his face and that his face has been disfigured. In the petition he states his injuries necessitated medical expense to the amount of $17.

PLANT LICE ALREADY EATING APPLE BUDS

Now's Time To Inspect Trees, Stowe Warns.

Owners of both shade and fruit trees are being advised by County Farm Agent S. B. Stowe to inspect their trees at once and if any evidence of scale is found spray them without delay. Mr. Stowe stated that spraying now would do much toward eliminating scale, while this method would be of little value after the leaves are out.

Mr. Stowe also has called attention of owners of apple trees to the fact that plant lice are already at work eating the buds on apple trees. He has advised that unless a heavy freeze should be experienced within a few days the trees should be sprayed.

HE SMASHES POLE IN AVOIDING COLLISION

K. R. Smith's Son Also Damages Machine Sunday.

In trying to avoid a collision with a machine driven by Carl F. Mayer Sunday morning the automobile belonging to K. R. Smith, and driven by his young son skidded into a telephone pole at the corner of Cherry street and Bellefontaine avenue. The machine struck the pole with such force as to break it off at the bottom and the cross-arms at the top. The pole was supported by cables which prevented it from falling to the ground. The driver of the car escaped uninjured, but the rear of the car was badly damaged.

THESE FARMERS WANT TO KNOW ALL ABOUT IT

State Highway Department Is Asked To Explain.

Acting on notices from William E. Weston, county surveyor, that their fences must be moved back a sufficient distance to make the Marion-Delaware pike a sixty-foot roadway, Marion county farmers residing along the highway will employ counsel to look after their interests in the matter.

At a meeting of a number of the landowners in the offices of the Marion County Farm bureau Saturday night, it was decided to invite a representative of the state highway department, at whose instance the notices were sent out by the county surveyor, to attend a meeting of the landowners at the farm bureau offices next Monday night. This date was tentatively set by the men, but it may be changed in order to suit the convenience of the state highway department.

The landowners state that their intention is to call the meeting so that the highway department can explain the reasons for the notices and through a discussion of the proposition arrive at an understanding of the matter.

VOCALION

New April Red Records.

Spring is on the way and there is no better means of bringing some of its brightness into your own home than with several new VOCALION Records.

The April list is filled with up-to-date surprises. The snappy fox-trot records of those big hits, "Bright Eyes" and "Love Bird," are bound to start everyone dancing.

Margaret McKee, a clever young whistler now appearing at the Hippodrome in New York City, gives some bird imitations that you can't tell from the birds themselves. The month's popular song recordings include the latest numbers that everyone is humming these days.

For operatic selections, Giulio Crimi sings the familiar "Spirit So Fair" from "Favorita."

A beautiful sacred recording is "Abide with Me," by John Charles Thomas, the well-known baritone, and a choice array of standard songs by other VOCALION artists.

In short, you can't afford to miss hearing the

THE HUB OF COMMERCE.

Daily Proverb—"He who is busy criticising the faults of his friends has no friendship in his heart."

Well, what's so surprising about today's brand? Didn't March come in like a lamb?

A Boston man says a three-day visit in New York City cost him $3,000, but he doesn't specify what particular tiger he bucked.

From all reports, it looks as though Bolshevism is beginning to be a sort of a twin brother, over in Russia, to a drug on a failing market.

Alexander Berkman now says that he doesn't want to return to the United States. "Everybody happy."

When either Lenine or Trotsky calls the Russian revolutionists traitors, the civilized world is bound to smile.

The heart of the world doesn't seem to be in sad plight, but gee, its finances are in awful shape.

The coming convention of the Religious Education association is to have for its general theme, "Education for World Fellowship." Very good in its place, but there's a whole lot of education for home fellowship needed in this great land of ours.

What we really hope is that hell is paved with anonymous letter writters and that dancing is permitted.—Ohio State Journal.

"Tut, tut!" What possible personal satisfaction could an upright, moral, God-fearing, Christian paragrapher get out of a situation like that, Bob?

"I'll say this for the allies," remarked the fellow who lives next door on the way down town this morning, "I haven't yet read about their army of occupation flooding any mines, destroying machinery or cutting down fruit trees."

A Denver merchant had a pint of whiskey in his safe and the burglar took that and left untouched $2,000 in money. Doesn't this suggest a useful function for whiskey? A protector of money?—Houston Post.

Had the remains been found in the vicinity, we might assume that it was bootleg and the burglar had sampled it before finishing his job.

In some quarters, the crying need seems to be some information on the diseases for which beer may be prescribed as medicine. It would be embarrassing should these interested chase around and contract the wrong kind of a disease, to say nothing of the waste of time, money and effort it would occasion.

COOPERATION IS ESSENTIAL.

There is danger that a strong feeling of antagonism may be aroused between the workers of the cities and the toilers on the farms—a situation that would work untold injury to all the people. Representatives of agricultural organizations say that the farmers feel that they are being forced to accept more than their share of the loss incident to the work of readjustment, but inquiry will reveal the fact that the manufacturers and the industrial employes are losing heavily because of adverse economic conditions.

The city resident depends on the farmer for food supplies, and the farmer must look to city dwellers to find a market for his crops. The interests of these two classes of citizens can not be divided. They should cooperate with each other. The farmer must be given a square deal in any equalization plans that are being made. He must be willing to accept a share of the loses incident to readjustment, but, on the other hand, he must be able to buy at lower prices the things he needs in farming and for his personal use.

Any attempts made by residents of the cities and towns to force prices of farm products down to an unjust level are ill-advised. Farmers and consumers should cooperate to eliminate unnecessary expenses of distribution, and in so doing they will benefit each other financially and create to a larger degree the feeling that their interests are mutual.

Who's Your Friend?

BIG FACTOR IN COST OF LIVING.

One of the greatest factors in the cost of living to most wage-earners, large numbers of whom do not own their own homes, is the rents which prevail in most communities. Increasing demand for homes and advancing costs of building have caused rents to grow rapidly.

It is practically agreed by persons who have made even a slight study of conditions that rents will not be reduced until more homes are built, and it is just as certainly agreed that little building will be done until construction costs are reduced.

With the spring season approaching, contractors and builders are becoming interested in any plans that will bring about a resumption of building, not only of homes, but of factories and business blocks, of which little has been done since the beginning of the war.

Lumber dealers make the claim that prices of their products have been reduced from twenty-five to forty per cent., but lumber is not the only material or commodity that enters into the cost of construction. Other materials are required, and the item of labor enters largely into the building cost.

Few workers in the building trades have employment, and unless there is a marked reduction in the cost of construction of buildings, it seems plain that unemployment will continue to prevail to a large degree. The public is on a strike against high prices, and this strike applies as much to building lines as it does to merchandise. Investments will be made when prices are lower, but not before.

MOVEMENT MUST BE GENERAL.

Important in the process of getting back to normal is resumption of building operations, not only building of homes, but of business blocks and industrial plants or extensions. This work was practically suspended with our entrance into the war.

Lumber dealers point to a decided reduction in prices and say that the next move is for dealers in other building materials and workers to make reductions if anything worth while is to be done toward stimulating building. Little progress seems to have been made in reduction of costs except in lumber.

Those who would be willing to engage in building enterprises if cost conditions were made right appear to have left it with the contractors, the dealers and the workers to bring about an understanding that will encourage erection of homes and construction along other lines.

Plans for new buildings to be erected during the current year are being made now, and it is to the common interest that a basis of operations be agreed upon. It is unreasonable to expect that yielding to lower costs be done by only one or two of the elements upon which building depends. It is time for all of them to get together.

The Wilmington News-Journal man complains: "Sometimes it seems to us that even the neighbors' hens crow along about 4:30 a. m." Why not go home earlier?

BOYS TO THE FOREFRONT.

Wellesley college serves notice that its academic benefits are not for the female infant phenomenon, in an announcement that the minimum age for admission hereafter will be sixteen. "The sixteen-year limit is a matter of common sense," says the statement. "There are occasional exceptions where a girl has had strong preparation and a good health record, but as a general thing the tendency is toward a rising rather than a falling age for admission."

Just now the boy scholars seem to be in the ascendant. The thirteen and fourteen-year-old freshmen at Harvard, Columbia and other institutions have been monopolizing the center of the stage. We have not heard so much of any girl wonders, notwithstanding the recent "emancipation" of women. And yet, as a rule, girls mature earlier than boys and their average of scholarship in the elementary and high schools is said to be superior.

LIFE'S VAUDEVILLE.

[By James Hall Naylor]

HANDICAPPED.

Are you handicapped—physically, mentally, morally?

Cheer up!

Is your heredity bad; is your environment poor?

Take courage!

Overcome your hereditary trends and tendencies; improve your environmental conditions.

You can do it—in a measure, at least.

Be boss of your ego; be captain of your own soul.

Does Fortune mock you?

Smile—and continue to court the fickle goddess.

Does Fate buffet you?

Grin—and fight back.

Recall this old story, to renew your courage:

She was an old lady of eighty, who for a dozen years had not walked a step without assistance. He was a small boy of seven, with a crippled limb, who could not move from place to place without the aid of a crutch. And these two sat on the shady varenda and together played hide-and-seek.

"You have three chances to guess where I'm hiding, grandma," the boy cried.

The old lady chuckled. Then she guessed: "Behind the bush."

"No," giggled the lad.

"Back of that chair on the end of the veranda."

"No; but you're getting warm."

"I know—under the couch in the hall."

The boy laughed gleefully.

"You've caught me," he said. "Now it's your turn to hide, grandma."

And so the game went on—all the sunny summer afternoon. These two handicapped mortals invented their own simple amusement.

You're handicapped physically—and you despair?

Come out of it!

I personally know a man of forty who has been a hopeless cripple ever since he was five years old. He had infantile paralysis; and both legs were left partly useless. He has never been able to stand erect; he has never been able to go, except upon crutches. When he was young his parents lived in a rural neighborhood, remote from a schoolhouse. He could not go to school. All the book-learning he got—which was little, indeed—his mother taught him.

Yet this man—handicapped physically and mentally—has made a success of life. He has bought and sold live stock, has run a livery stable, has bought standing timber and cut it into lumber and marketed it. All over the rough hill roads of his native county he has ridden horseback—though he has always had to be helped into the saddle and helped out of it.

He has kept his old mother, and himself in comfort and comparative luxury. He has never pined or lamented; he has never accepted charity; he has never begged favors. He has always smiled—and kept busy.

You're handicapped, you say?

Maybe you don't know what a handicap means.

COMMUNISTS USE DYNAMITE

(Continued from Page One.)

ing, Prussian minister of the interior, said:

"The German Communist party takes its orders from Moscow, and one need only follow the manifestoes daily appearing in its official organs to locate the fountain head of this iniquity. The rioting in the Saxon province," the minister added, "was also productive of tangible evidence of the complicity of soviet agents in the instigation of the present disturbances."

The minister said he strongly suspected, however, that the cue for the present insurrection miscarried, and that the signal found the extremists elsewhere than in Prussian Saxony unprepared for the crisis, declined to join the movement or timid about acting.

To Fight Reduction.

Columbus, March 28.—Reiterating the decision that the railroad workers throughout the nation will refuse to accept a reduction in wages, Scott Wehe, Columbus, member of the executive board of district, No. 40, Pennsylvania railroad machinists, expressed confidence that the national agreement between the railroads and their employes will be sustained, for the most part, in the decision which the railway labor board will make relative to the request by executives of the railroads for abrogation of the agreement.

Wehe, who spent the past three weeks at Chicago representing the 22,000 railroad workers in his district before the railway labor board, admitted that employes will gain and lose on various provisions.

MR. A. C. SPRINGER WELL KNOWN BUSINESS MAN, MARION, OHIO, TELLS FACTS ABOUT NUXITE

Had Stomach, Kidney and Liver Trouble, Forced Almost to Give Up His Business.

Searched a Long Time for Relief, Now Feels Better Than in Many Years.

When so many well known people of unquestioned integrity makes statements each and every one testifying to the same thing day after day and each corroborating the other, the truth of such statements can no longer be doubted. One of the latest to testify regarding Nuxite is A. C. Springer, cement contractor, who lives at 1025 east Center street, Marion, Ohio, and when men of this type testify it can not be doubted that Nuxite is all that is claimed for it. "I have only been taking Nuxite about 13 days, said Mr. Springer, and have been very much improved; so much that I am ready right now to state to the world that this medicine has proved a grand success in my case. I had stomach trouble for some time. Stomach all upset, bloating and gas on my stomach. After meals I became almost deathly sick and was often unable to retain anything I had eaten. My condition was fast rendering me unfit for the duties of my position. My kidneys and liver caused soreness across the side and back, coated tongue, my appetite was no good, could not rest well at night, no energy or ambition to work, tired and sluggish feeling. Since taking Nuxite I am just feeling fine, my food digests all right, don't have that bloating and gas on my stomach, kidneys and liver acting all right, don't have that sluggish feeling, sleep sound every night, have more energy and ambition to work. Mr. Springer says Nuxite can be depended upon for results. Nuxite is sold at Robinson & Co.'s drug store, by W. B. Conner and may be obtained at Kyle's drug store, Richwood, Ohio.—Adv.

HARDING HIGH WINS FROM GALION SATURDAY

And Ties for North Central League Cage Title.

GAME IS STAGED AT Y. M. C. A. GYMNASIUM

First Five Minutes of Battle Is Nip and Tuck—Knachel and Phillians Shine.

[BY FRANK D. WEEKS]

Saturday night at the Y. M. C. A. a record breaking crowd witnessed the Harding high basketeers put the crimp in the Galion, would-be-champion outfit. Although the battle was fast and furious from start to finish, the locals ran over their opponents to the tune of thirty-four to nineteen keeping the lead throughout the entire game. This brings about a tie for the North Central League cage title between Marion, Mansfield and Galion. It is doubtful, however, if the tie will be played out as it is so late in the season.

The first five minutes of the battle was nip and tuck and it seemed as if a break never would come. Eventually, however Phillian started the ball rolling by dropping in a foul and this was immediately followed by a prettily made field goal which Griffin dropped in from over half the length of the floor. Another foul was scored by Phillian, making the locals count four, before the Galion outfit got started. A foul was Galion's first tally. They followed this with a field goal. The Marionites feeling slightly uneasy started an offensive drive which netted ten baskets, Knachel and Phillian each scoring four field goals while Minard, who played an excellent game at center added two more to the list bringing the local's count up to twenty-four while Galion only managed to net eleven points by the end of the half.

Repetition of the First.

The second period was a repetition of the first half. The locals' defense remained air-tight and consequently their opponents were forced to resort to long shots while the Marionites by excellent passing and shooting made their offense all that could be desired. Although Galion put up a good figth and tried desperately to win by a strong comeback they were plainly out played and were unable to close up the lead which kept their classier opponents a safe distance ahead throughout the entire game. Affairs grew rather rough and snappy along towards the end of the game.

Several men from each team were taken out due to the acquiring of the allotted amount of personal fouls, but "subs" were plentiful and these offered plenty of competition and when the gun was fired the would-be-champs found themesives on the scraggy end of a thirty four to nineteen score.

Although the entire team played excellent basket ball, special credit must be given to Captain Knachel and Phillian, who played their last high school game. Knachel, who has made a splendid leader all season and in whom his teammates always placed confidence and trust, played as though every minute was the last and he certainly did himself and his school credit when he ended his season by scoring six field goals. Phillian likewise played hard every second of play and again came through as high scorer with a total of sixteen points. Harding High schol will lose two good men when Knachel and Phillian receive their diplomas this June, but their records will remain as permanent examples for the on-coming athletics who have the best interests of their school at heart.

The three senior "subs", Durr, Mewhorter and Weeks, also played their last game, but with Minard, Burdette and Griffin coming back next year, local fans should look forward to a championship season in the coming year.

Don't let inferior oil hold up your trucks

Profits today depend upon rigid economy

WHETHER you use a little one-tonner on pneumatics or a fleet of 5-ton giants, every truck must pay its way today. Layups for repairs wipe out months of profits.

Scientific checking shows that 90% of all truck engine troubles are due to faulty lubrication. Ordinary oil forms black sediment when subjected to the intense heat of the engine—200° to 1000°F. Cylinders are scored, bearings loosen, over-heating becomes common.

Keep expense like this off your books. Sediment is reduced 86% when you use Veedol, the lubricant that resists heat. (See the two bottles below.) With Veedol in the crankcase most serious troubles are prevented. Engines pull better, throttle down lower.

Have your men flush out their engines. Instruct them to fill up with Veedol. Leading dealers have Veedol in stock. Consult them for quotations.

Veedol lubricants for every part of the chassis

Use Veedol lubricants for all parts of the car: VEEDOL for the engine (light zero, medium, heavy, special heavy, extra heavy); for the differential and transmission, VEEDOL TRANS-GEAR OIL or GEAR COMPOUND, for the tractor and truck, WORM DRIVE OIL; GRAPHITE GREASE; CUP GREASE.

RAIN SPOILS EASTER FASHION PARADE HERE

But It Does Not Affect Attendance at Church,

FOR EASTER DAY CROWDS ARE NEVER SO LARGE

Abundance of Flowers in All the Churches—Programe and Cantatas Rendered.

There was no fashion parade in Marion. The rain spoiled it all, but the rain did not keep them from going to Sunday-school and to church.

Never before in the history of Marion were the churches so packed with Easter day crowds as they were yesterday. And in every church there was an abudance of flowers.

St. Mary's Church.

Solemn high mass was celebrated at St. Mary's Catholic church Sunday morning at 10 o'clock in observance of Easter. The altars were beautifully decorated with flowers.

Father Joseph M. Denning was celebrant, Father Edward A. McGinty, deacon, and Father Thomas J. Kearns, subdeacon. A sermon on the resurrection was delivered by Father McGinty. Benediction followed mass. Other masses were celebrated at 7:30 and 8:30 o'clock and the sermon at the mass at 7:30 o'clock was also delivered by Father McGinty.

Prospect Street Church.

Easter was fittingly observed at the Prospect Street M. E. church Sunday morning, the program being in two parts. The first part, consisting of songs, recitations and playlets, was given by the smaller children and the other part was an Easter cantata, "Gates Ajar and Hope's Messenger," consisting of musical numbers and recitations. Mrs. Harry Wilhelm took the part of the pilgrim; Miss Freda Wanner was "Faith," Miss Clara Trefz, "Hope" and Fred Trefz, a cross bearer. These were assisted by a chorus of messengers, a chorus of young children and the choir.

The church was beautifully decorated with a cross and potted plants.

After the cantata the pastor, Rev. J. C. Gerlach, gave a short Easter address, and preceding the program Helen Ruth, little daughter of Mr. and Mrs. William Risch, was baptized.

First Reformed.

Easter Sunday was observed in the First Reformed church with a sunrise prayer service at 6 o'clock Sunday morning in charge of Mrs. Helen Cleveland. The communion service as well as the church and Sunday-school attendance was the largest of the year. The church was beautifully decorated and the pastor, Rev. A. L. Scherry, delivered a sermon on "The Easter Triumph." An appropriate Easter anthem was sung by the choir.

There was no sermon at the evening service when the choir, under the direction of A. C. Queen gave an Easter cantata. All the services were well attended.

Central Christian.

The largest attendance in the history of the Central Christian Sunday-school was present at the Easter Sunday services Sunday morning. A short program was given and the pastor, Rev. M. L. Buckley, preached a short Easter sermon to the children. The morning services were followed by baptism and two persons were converted. A collection amounting to $17 was taken up during the Sunday-school hour. This money will be applied to orphange benevolence work.

Those taking part in the program wer Miss Dorothy Buckley, Miss Kathryn Schneider, Miss Helen Holland, Miss Margaret Johnson, Miss Sara Taylor and the pupils of Mrs. L. Parks, Mrs. P. Rubins, Mrs. T. Bevis, Mrs. Clark and Miss Carrie Courtney's classes. The program was in charge of Mrs. J. W. Thompson.

In the evening Rev. Mr. Buckley delivered the Easter sermon on "Resurrection." Potted plants and cut flowers were used to decorate the church for the occasion.

Forty-eight conversions were made during the revival services which closed last week at the Central Christian church.

Bellefontaine Avenue Evangelical.

Rev. C. W. Ruhlman delivered an Easter sermon at the Bellefontaine Avenue Evangelical church, Sunday morning, and services appropriate of the day were held in the evening.

The attendance at the session of the Sunday-school, in the morning, broke all previous records.

Forest Lawn Presbyterian.

Easter was fittingly observed at the Forest Lawn Presbyterian church, Sunday evening, the attendance being large.

A communion service was held and five persons were received into the membership. The choir, under the direction of Ralph Kinney, rendered the Easter cantata entitled "Our Living Lord." The solo parts were taken by Mrs. J. W. McNeal, Mrs. Paul Caldwell, Ralph Bowers and Emil Rice.

Salem Evangelical Lutheran.

A sunrise prayer service was held at the Salem Evangelical Lutheran church at 6:30 o'clock, Sunday morning, being led by Mrs. Harry Griffith. The attendance was large and special music was rendered. Mrs. Gerald Kleinmaier and Miss Florence Rothfus gave a piano and vocal duet and a similar duet was contributed by Miss Mildred Click and Miss Edena Koenig.

The Nica Bible class served lunch after which the Sunday-school, in charge of Mrs. Leo Keller, rendered a special program. There was a record attendance and collection. The Easter story was read and special music was rendered after which communion services were held and a special sermon was delivered by Rev. D. H. Morlin. In the evening a special program was rendered by the Daughters of Ruth class, entitled "The Ten Virgins." Communion was held and there was special music by the choir, the solo part being rendered by Irving Dutt.

Emanuel's Lutheran.

Easter services and communion were conducted by Rev. J. W. Schillinger at the Emanuel Lutheran church, Sunday morning, the services being largely attended.

In the evening the choir rendered the Easter cantata entitled "Triumphant Life." The solo parts were taken by Miss Anna Heyde, Miss Elsie Ackerman, Miss Elsie Roecker, Mrs. Ralph Twigg, William Ackerman and Harry Kull.

Calvary Evangelical.

The Easter observance at Calvary Evangelical church was opened with a prayer meeting at 6 o'clock, Sunday morning, with a record attendance for such a morning service. This was under the auspices of the Young People's alliance and in charge of James Bolin. There was a record attendance at the session of the Sunday-school at which an Easter solo was rendered by Mrs. Woodrose.

At the morning service Rev. C. L. Allen delivered a special Easter sermon on the subject "An Unrisen Christ." Special music was rendered by the choir and nineteen were received into the church. The attendance was the largest ever held in the new church. A joint meeting of the Senior and Intermediate Young People's alliances was held in the evening, this being led by Lorin Myers, while Harvey Zachman gave an interesting talk. The theme of the evening sermon by Rev. C. L. Allen was "Life Without Hope."

Notes Are Burned.

Notes freeing the church of debt were burned at the Easter Sunday morning service at the Nazarene church. The pastor, Rev. J. W. Henry delivered a sermon taking for his subject, "He Arose." The members of the Junior league sang a special Easter anthem and the services closed with the distribution of communion.

"Christ Our Light" was the subject of the pastor's evening sermon. All the services were well attended. The members of the Young People's alliance will meet Friday evening at the home of Edward Layman, No. 479 Uncapher avenue for the annual election of officers.

First Presbyterian.

An Easter cantata, entitled "Easter Tide," was rendered by the choir of the First Presbyterian church, Sunday morning, in observance of Easter. There was a record attendance at the morning service and twenty-four were received into membership. Special music was rendered at the evening service and Dr. L. L. Strock delivered an excellent discourse on the theme "The Joy of the Resurrection."

St. Paul's English Lutheran.

Your old methods of teeth cleaning

See what this new way does. Watch your teeth whiten—note how clean they feel. Millions have learned in this way how much film removal means. It is something that you should know.

You must fight film

Your teeth are coated with a viscous film. It clings to the teeth unless you combat it, gets between the teeth and stays.

It forms a dingy coat which dims the luster of the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film. And, despite the daily brushing, very few escape them. The old brushing methods do not effectively fight film.

New ways to combat it

Dental science has now found ways to combat film. The methods are embodied in a dentifrice called Pepsodent. It has proved so effective that leading dentists everywhere are now advising it. And millions of people have already adopted it.

Pepsodent, with every use, brings five desired effects. It attacks the film in two efficient ways. It keeps teeth highly polished. It stimulates the salivary flow—Nature's great tooth-preserving agent.

It multiplies the starch digestant in the saliva. That to digest the starch deposits which cling to teeth and often form acid. It multiplies the alkalinity of the saliva. That to neutralize the acids which cause tooth decay.

Modern authorities regard these effects as essential aids to Nature, in view of the average diet. To bring those effects twice daily means such protection as you have not known before.

See and feel them

The results can be seen and felt. They are delightful, and this 10-day test will bring them to you.

Send the coupon for it. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects, and the book we send you will tell you what they mean.

Do this now in justice to yourself. Learn how much this new-day method means to you and yours.

IMPORTANT TO EVERY MOTHER

Do you know the best energy food for children?

GROWING children need a great deal more energy food than adults, for they use up so much more energy. Every mother and father knows this.

The food element that furnishes the greatest amount of energy—is Dextrose. Most of the food you eat—such as bread, starchy vegetables, and all forms of sugar—has to be changed into Dextrose before your system can use it.

Karo, the Great American Syrup, contains a very large percentage of dextrose. This gives Karo its wonderful energy-producing value, and is what makes it so nourishing and wholesome for children—as well as for grown people.

Give the children all the Karo they want on cereals—on cakes or bread, or for making delicious, pure, home-made candy.

Holding A Husband

BY ADELE GARRISON.

As Dicky and I entered the florist's shop I saw Edith standing in the doorway leading to the greenhouse, where the owner, a gentle, quiet, little chap with the soft accents of Italy sounding in his voice, grows really wonderful roses.

Her back was toward us, and she made no movement of recognition, but I knew—beyond all question—that she was aware of Dicky's presence. I knew it, alas! with the prescience of a jealousy I thought I had conquered, but which I found was still within my foolish heart.

"Lo, Edith!" Dicky called cordially. "Buying out the place?"

She turned swiftly, casually—I thought too casually—and nodded a smiling recognition without offering her hand. The omission annoyed me, for I was certain that if I had not been present she would have greeted him in less offhand fashion.

"Not exactly!" she said coolly. "Look here, Madge, what do you think of these? They're exactly the shade for the rooms, don't you think?"

I caught my breath, beauty lover that I am, as the little bent proprietor stepped aside and let me gaze upon the nodding roses in the most exquisite shades of pink.

"They're perfect!" I replied. "It's only a question of how many we want."

Dicky had followed me to the door and was looking over my shoulder.

"By Jove!" he exclaimed in a tone that betrayed astonishment at something more than the mere beauty of the blossoms.

"Look here," he said to the proprietor. "Do you ship roses to New York?"

"Oh, yes," the man returned in very good English, "every day."

"What firm?"

The man named one of the big Fifth avenue florists.

"Well, I'll be hornswoggled. I'll bet I have three dozen of your roses out in the car now. Bought them this afternoon of that firm."

He dashed out to the car, brought in the box and untied it. I caught glimpses of some exquisite corsage bouquets, and underneath a mass of the same roses we were buying.

"That will save Mrs. Durkee a good deal," Edith said practically. "Three dozen did you say?" She spoke of getting six dozen in all, so I suppose if we take three dozen we'll be all right. How much are they?" she turned to the proprietor of the shop.

"Two-fifty a dozen to Mrs. Durkee," the man replied. "She is a very good customer of mine."

I saw Dicky open his mouth in amazement, then close it again as Edith nodded an assent to the bargain, and the man took up his shears and walked down the lane of roses.

"Well?" Edith smiled mischievously, and I saw that she also had noticed Dicky's astonishment. "'Fess up—how much did they sting you in little N'Yawk?"

"I'd never dare to tell," Dicky said ruefully. "Madge would never let me hear the last of it. But it was enough—I'll tell the world it was more than enough! And to think here these were fresh on the bushes all the time."

"I've tried to tell you about this florist several times, dear," I said, foolishly enough, but his reference to me had irritated me and made me willing to scratch back.

"You see!" Dicky spread his hands, turned to Edith. "She's the original 'I-told-you-so.'"

I had just sense enough left to laugh merrily, as if he had said the wittiest thing in the world, but inwardly I was angrily anathemizing the folly which had led me to leave an opening for so cutting a remark in Edith Fairfax's hearing.

"That's the first duty of a wife," I returned saucily. "They're thinking of putting it into the marriage service now in place of 'obey.' You'd better be practicing it, Edith."

She had an excellent opportunity to be catty, but evidently she disdained to use it.

"I promise to love, honor and say I told you so," she chanted. "How sensible that is!"

Dicky groaned.

"Why is a man, anyway?" he asked tragically.

Then, with a sudden descent to burlesque, grasped us both by an arm and rushed us to the front of the shop.

"Help me tie this up again," he commanded.

"How perfectly exquisite!" Edith touched one of the corsage bouquets with tender, admiring fingers. They were all alike, of pink and white sweet peas and feathery maiden hair fern. "Six! For every one of us?"

"Of course," Dicky said indifferently. Then, as she helped him tie the box—there was no room for three of us, and I had stepped back unobtrusively—I heard him say in a lower tone:

"I know they aren't your favorites, but, of course, I had to get them all alike."

INGROWN TOE NAIL TURNS OUT ITSELF

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.—Adv.

Millions of people know that it is needless to be bothered with indigestion, dyspepsia or a disordered stomach. A few tablets of Pape's Diapepsin neutralize acidity and give relief at once—no waiting! Buy a box of Pape's Diapepsin now! Don't stay dyspeptic! KEEP BLOOD IN FIGHTING TRIM

Thin-Blooded People Should Strengthen the Blood with a Good Tonic To Keep Off Contagious Disease.

TAKE GUDE'S PEPTO-MANGAN

If You Tire Easily and Feel Run Down, Your Blood Needs More Red Corpuscles. Watch Your Blood Condition Now.

It is thin-blood, ahemic people that disease strikes first. If any of the disease germs that so often become epidemic catch you in a run-down condition, they are able to take hold—and the first thing you know you are ill. But if you are in good condition, your blood vigorous, rich and red, your system is able to throw off the effects of germs that are so prevalent when an epidemic breaks out.

Make up your mind to this fact—you are either well or you are not well. And the common-sense thing to do is to be on the safe side. If you are in doubt, take that wonderful blood tonic, Gude's Pepto-Mangan. It makes blood rich and red. It increases the number of red corpuscles, and your system is better able to fight the ravages of epidemics.

Watch your children. If they are pale and wan and thin-blooded, give them Gude's Pepto-Mangan. Gude's Pepto-Mangan is put up in both liquid and tablet form and is sold by druggists everywhere. The liquid and tablets have exactly the same medicinal value. Buy whichever you prefer, and be sure it is genuine "Gude's Pepto-Mangan." The name "Gude's" is on the package.—Adv.

Now I can do all my own work and it is the Vegetable Compound that has saved me from an operation. I cannot praise your medicine too highly and I tell all of my friends and neighbors what the Compound did for me." — Mrs. MARGARET MCCUMBER, 7 S. Frazier St., Georgetown, Illinois.

Mrs. McCumber is one of the unnumbered thousands of housewives who struggle to keep about their daily tasks, while suffering from ailments peculiar to women with backache, sideaches, headaches, bearing-down pains and nervousness,—and if every such woman would profit by her experience and give Lydia E. Pinkham's Vegetable Compound a trial they would get well.

Yesterday was Sunday and my grandfather which has got enough religion to last him the rest of his life, went fishing and I went to Sunday School. I am so almost new that I have just started in getting religion, so that I will have to work at it a long time before I have got as much as my grandfather, so that I can go to the breakwater fishing on Sunday. My mother told me that.

She told me that my grandfather, which is her father, is a offal good man. I guess he must have told her that. My father says that he is one of the finest ground and lofty lires it has ever been his pleasure to listen to. That is what I think but I would not say it because no short panster ought to talk that way about anyone that is older than they are.

Me and Jubilee went to Sunday School and come home and had punkin pie for dinner and I cleaned fish for my grandfather after dinner. If I had made fish I would have made them so they could be pulled apart like a bansna and throwed in the pan. God must have been offal busy busy when He made fish. He made them all bones and scales and without any forehead, and without any chin to wear their whiskers on if they had any. I am glad I am not a fish. I bet if I was my grandfather would come lugging me home for me to clean.

This morning which was a school day, being Monday, was a very nice day. School days is mostly nice, and all the bad weather is saved up for Saturday. The teacher went around with her hook and pulled the windows down from the top, and I heard a bird sing, and I wanted to go out and spin a top and play marbles and fly a kite and go swimming and tie a knot in the Lost Bag of Tripe's shirtail so bad that I could not remember what I was studying. I do not see what makes a fella feel that way so long ahead of vacation.

When I got home from school there was not anyone home and there was four new punkin pies cooling on the kitchen table, and I looked at them a long time and tried one by stooping over and sticking my tonkue in it, because it is not right to touch anything anyone is going to eat with your hands.

So then I did not know when my folks would be home, or if eny-

I do not see what makes a fella feel that way so long ahead of vacation.

thing would happen to them and I might starve to death so I took the one I had tried out to the barn and me and Jubilee et it. Then I went in the house and washed the pie tin and wiped it and put it with the clean ones and when my mother came, she kinda made a funny noise when she saw the three pies, then se went and counted her clean pie tins, and she said to herself that she could ov swore she made four instead of three. It is mighty easy for a woman to be mistaken.

My father said after supper that March was going to go out like a lion and I had better go to bed so it would not g ake me before it went out. So I went up and patted Jubilee up by the rope in his teeth. I should worry about a roring lion while I have got a dog like Jubilee!

GARIS' BEDTIME STORIES

UNCLE WIGGILY AND THE SUGAR COOKIES

[BY HOWARD R. GARIS.]

[Copyright 1921, by the McClure Newspaper Syndicate.]

"Oh, Uncle Wiggily! Look out! Look out!" suddenly called Susie Littletail, the rabbit girl, one day, as the bunny gentleman was hopping through the woods. "Don't step there!" and Susie pointed at something.

"What's the matter?" asked Mr. Longears, looking over the top of his pink, twinkling nose, to make sure it was all right. "Was I going to step on the tail of the Fox or the Pipsiwah, Susie?"

"Neither one," answered the little rabbit girl. "But if I hadn't called you would have put your foot right on my sugar cookies!"

"Sugar cookies!" exclaimed the bunny gentleman. "I don't see any, Susie."

"Oh, of course they aren't real sugar cookies," said the little rabbit girl. "I'm only making believe! Baby Bunty and Jennie Chipmunk

He stuffed half a dozen cookies in his mouth

are coming over in the woods to play with me pretty soon, and I'm making pretend sugar cookies for our dolls to eat."

"Oh, I see!" laughed Uncle Wiggily. Then he looked where Susie pointed and he saw that she had made some cookies out of chocolate brown mud, with something white and sparkling, just like grains of sweet sugar, sprinkled on the top.

"That looks like real sugar, Susie," said Uncle Wiggily.

"If you tried to eat it you'd find your teeth full of grit!" laughed the rabbit girl. "That which looks like sugar is only white sand. And of course the cookies are made of mud. You wouldn't want to eat them, Uncle Wiggily!"

"N, I guess not!" the bunny gentleman answered. Then he hopped on through the forest, and pretty soon Baby Bunty and Jennie Chipmunk came to play with Susie.

Uncle Wiggily looked all through the woods for an adventure, and when he couldn't find one he turned back to his hollow stump bungalow. When he reached there he found Nurse Jane Fuzzy Wuzzy, his muskrat lady housekeeper, just leaving.

"I'm so glad you came along, Wiggy," said Miss Fuzzy Wuzzy.

"Why?" asked the bunny.

"Because Mrs. Wibblewobble, the duck lady, just telephoned and asked me to come over," said Nurse Jane. "I didn't want to leave the bungalow all alone, as I have just baked a batch of molasses cookies. They're out of the oven, on the kitchen table. When I come back I'll sprinkle sugar on them."

"All right," answered Uncle Wiggily, and as Nurse Jane hopped away the bunny went in the kitchen and saw the pan full of fresh molasses cookies. He also saw a bag full of something white and sparkling.

"Ah, this is the sugar that Nurse Jane was going to sprinkle on the cookies," said Uncle Wiggily. "Well, I'll save her that trouble. I'll put the sugar on the cookies myself."

So Uncle Wiggily sprinkled a lot of the white, sparkly stuff from the bag from the molasses cookies, and just as he finished the kitchen door opened.

"I've sugared the cookies for you Nurse Jane," said the bunny, not turning around to see who had come in. Of course, he thought it was the muskrat lady.

"Oh, you're sugared the cookies, have you?" growled a voice. "Well, that's good, for I'll eat some cookies next, and then I'll nibble your ears! Whuff!"

Uncle Wiggily turned around and saw the bad old Woozle Wolf!

"Oh, please don't nibble my ears!" begged the bunny.

"Yes, I shall!" howled the Wolf. "But first I'll eat half a dozen of these sugar cookies!" Most impolitely he stuffed half a dozen cookies in his mouth at once and began chewing them. And then, all of a sudden, a funny look came over the Wolf's face and he howled:

"What's this? What trick is this? Oh, my teeth are full of grit! I can't eat these cookies! They're all sandy!" And away he ran to wash the grit off his tongue.

"Well, that a funny!" said Uncle Wiggily, putting on his glasses to look at the cookies.

"Oh, not so very funny!" laughed Nurse Jane, who came back just then. "What you sprinkled on the cookies was some white seashore sand that I was saving to polish my pots and pans. You put SAND on the cookies instead of SUGAR. No wonder the Wolf's teeth were gritty!"

"No wonder!" laughed Uncle Wiggily. "I'm as bad as Susie." Then Nurse Jane baked more cookies and the bunny put real sugar on them, but the Wolf didn't have any.

"You have enough Spring Suits to give every moth in the world Indigestion."

These headlines are not original—we are simply requoting the expression of an alert young man who was taken back by the number of patterns and models we laid out in his size—37.

"Why," he continued, "I thought all clothiers were laying low—is this condition general?"

"No, sir," we replied—"selections like these are not general—nor is this a general store.

"What you see here is here because we are here—we are banking on our values and our models to make this season make last season look microscopic in volume of sales."

Easy to talk this way—with a store full like this to guide your keyboard. All the smart styles of the season didn't go out before Easter. No-sir-ee!

If you didn't get your new suit last week, there's a bright Sunday promised at the end of this. And more handsome new models arriving every day at "The Men's Store." and going out almost as soon at these prices.

DR. JESSE SWANK HEARD BY MARION COMMANDERY

Knights Attend Services in Body Sunday Afternoon.

MARCH TO CHURCH HEADED BY BAND

"Pilgrims of the Infinite" Subject of Eloquent Sermon by Epworth M. E. Pastor.

About seventy-five members of Marion Commandery, No. 36, Knights Templars, headed by the Marion Masonic band, marched to the Epworth M. E. church Sunday afternoon for the annual Easter services of the commandery held at 3 o'clock.

The services, which were well attended, were opened with an organ prelude by Mrs. V. E. Dombaugh. After a hymn, "Onward Christian Soldiers," Dr. George H. Birney, of Cleveland, the evangelist, offered prayer.

The anthem "As It Began To Dawn," by *Reed*, was followed by responsive reading by the prelate and knights, and then H. J. Brouwer, director of the Epworth choir, sang "Open the Gates of the Temple," by Knapp, and the choir sang "He Died."

Dr. Jesse Swank preached an eloquent sermon on "Pilgrims of the Infinite" and the closing services included the hymn, "All Hail the Power of Jesus' Name."

Dr. Swank's Address.

Dr. Swank said in part:

"Pilgrims of the Infinite!. It gives me real joy, my brother sir knights, on behalf of our great church to welcome you to this holy service here on this glad, happy, triumphant Easter day—the day most full of hope and promise of all the days of the Christian calendar.

"The consummation day of the life and work of Jesus Christ; the triumphant day when, having vanquished death, hell and the grave, He *rises to live for ever more* and from His throne in the skies sends back to us this cheering word; 'Because I live ye shall live also.'

"I am glad to welcome you because we all believe in the Bible, the book of God, the record of His revelation to men, which has survived the centuries and which lies wide open on the altar of our asylum, teaching us with its revealed turth the way of Christ. I welcome you because we believe in God, the *name of names, never to be taken* in vain. The name of the Almighty Being of Jesus, infinite in greatness, goodness and bliss. The God Who so loved the world that He gave His only begotten Son that whosoever believeth in Him might not perish but have everlasting life. I welcome you because we believe in Jesus Christ the divine human son of the God our Savior.

Nothing Superior.

"There is nothing superior to these *great beliefs. There is nothing* equal to them. I welcome you because as a band of men you have pledged yourselves with fortitude courage and constancy to defend the weak, care for the widow and orphan and only to draw your sword in the cause of right and the Christian religion. I welcome you as pilgrims who firmly belive, because of the symbolic and solmen truths taught you, in the mortality of the body and the immortality of the soul. And, finally, I welcome you because as a band of brothers we all believe in the Almighty force and power of truth, that truth is a divine attribute and the foundation of every virtue and that above all other power in the world of wine, women and the king, stands the power of truth which must ever bear the palm away.

Two Great Fundamental Truths.

"I have chosen the text found in Second Timothy 1-10. 'Jesus Christ Who *hath abolished* death and hath brought life and immortality to light through the gospel,' in order that I might speak to you of the two great fundamental truths of religion truths of vital importance to all the race of men: truths that make for the progress and well being of men, both in time and in eternity; the truths of the immortality of the soul and the resurrection of the body. My text states these clearly. Who abolished death and brought life and immortality to light.'

"Truths so in harmony with nature, life and human experience that no right-minded man will deny them.

"We are all pilgrims. This earth is not our home. There is an urge in each of us ever driving us onward to a future goal. Your fathers—where are they? And the prophets—do they live forever? No, nor does anyone else.

"Nature impressively teaches us this lesson. Go out today and lay your ear by the side of the rapidly-rolling river and you will hear it say 'I am a pilgrim.'

Get Close to Nature.

"Go to the meadow and ask the greening grass and it will answer 'I am a pilgrim.' Go to the trees of the field and ask them and you receive the same response. Ever since the earliest people left their ancestral homes and started out to find a new country and found a new empire, the nations of the earth have been journeying here and there ever restless, never satisfied, pushing on till they have reached the North pole and the South.

"Today it seems as though all Europe is endeavoring to move over to America and all America is journeying here and there and yonder seeking a Utopia which will never be found anywhere in this world.

"The Bible is full of this divine truth. Our lodge gives very impressive lessons in regard to it. The poetry of the world is full of the same thought.

"Where Are We Going?"

"Where are we going? We are all journeying to the same place—death and the grave. Pilgrims on the way and bound to reach the end. Pilgrims of mortality and there is not a place where human beings congregate that does not bear eloquent testimony to this. The home, the city, the church, the forum of business, the lodge.

"Death is the end of all. Man is born into this world a helpless infant dependent on the care of others. He comes to knowledge of himself and of the world. Then comes the tender teens, the tempted twenties, the tireless thirties, the manly forties, the waning fifties, the weary sixties, the aged seventies, life's close at eighty, the shroud, the pall, the funeral, the open sepulcher, the silent grave and man is gone from mortal sight forever. You men have been taught that it is not worth while to spend your life in oppressing the weak, in struggling for place and power. As you sat in the solemn chamber of reflection, as you donned your pilgrim garb, as you passed through your years of warfare, as you solemnly devoted yourself to penance, as you listened to the solemn lesson from the Word of God on the betrayal and death of Jesus, as you beheld the emblems and symbols of mortality, after all this is what? The end of your life.

"Is This All?

"The end of Christ life. Is this all? No. For Jesus Christ abolished death and brought life and immortality to light in the gospel. He is our Hero knight. He is our living Lord. He is our deliverer from the power of sin, satan, disease and death. Death is still here as a fact but not as a power; as a victim, not as a victor; as conquered, not as conqueror; so that all who believe in Christ can say with Paul, 'O, death, where is thy sting? O grave, where is thy victory?' Our Hero knight hath conquered for himself and for us. Christ has risen, let all the earth be glad. Let the flowers bloom and the organ roll and human voices shout and sing. Thanks be unto God who giveth us the victory through our Lord Jesus Christ. We are no longer pilgrims of the finite, but of the infinite."
